Explanation

This CFR Index and Finding Aids volume is revised once a year as of January 1. It contains:

(1) A subject/agency index for rules currently codified in the *Code of Federal Regulations (CFR)*.

(2) A list of agency-prepared indexes appearing in individual *Code of Federal Regulations* volumes.

(3) A table of laws and Presidential documents cited as authority for regulations currently codified in the *Code of Federal Regulations*.

(4) A list of Acts requiring publication in the *Federal Register*.

(5) A list of *Code of Federal Regulations* titles, chapters, subchapters, and parts.

(6) An alphabetical list of agencies appearing in the *Code of Federal Regulations*.

Subject/Agency Index.

This index covers regulations codified in the CFR as of January 1, 1986. Emphasis is placed on directing users to CFR Parts. A Part in the CFR contains the regulations on a single function or specific subject matter under control of the issuing agency.

For each Part of the CFR, entries are provided in the index under the name of the issuing agency and under as many subjects as required to describe the overall content of the Part. The agency name is derived from the CFR Chapter headings. The subjects used in the index are taken from the thesaurus developed by the Office of the Federal Register and published in the *Federal Register* of June 16, 1983 (48 FR 27646). The descriptive entries under the subject and agency headings generally reflect the Subchapter and Part headings of the regulations. References in the index are to CFR Title and Part: e.g., 12 CFR 228 refers to Part 228 of Title 12. In one instance, Title 26, Part 1, section references are included, e.g., 26 CFR 1 (1.1-1.11).

In 1981 the Administrative Committee of the Federal Register issued a regulation (1 CFR 18.20) requiring Government agencies to use the Federal Register Thesaurus of Indexing Terms to prepare a list of subjects for their regulations. This 1986 index incorporates a number of agency-suggested changes to the Index and the Federal Register Thesaurus.

Because the CFR volumes are revised annually in quarterly segments, references in the CFR index will include material in the basic CFR volumes as well as amendatory material published in the daily *Federal Register* through January 1, 1986. Where a referenced Part cannot be found in the CFR volumes, users should consult the "List of CFR Sections Affected (LSA)" issued monthly and the "Cumulative List of Parts Affected" which appears daily in the *Federal Register*. These two lists will refer the user to the appropriate *Federal Register* page for the latest amendment of any given regulation.

Users of the CFR Index volume will also find the monthly Federal Register Index helpful in locating recent specific changes in agency regulations. Where the CFR Index provides a general guide to all existing regulations, the Federal Register Index characterizes changes to regulations in more specific terms, emphasizing current trends and areas of immediate public interest.

Finding aids

There is an explanation preceding each of the other finding aids in this volume.

The Office of the Federal Register encourages users to comment on any aspect of the CFR Index and Finding Aids volume. Address comments to John E. Byrne, Director, Office of the Federal Register, National Archives and Records Administration, Washington, D.C. 20408. Specific questions on how to use this index, or the finding aids, or for help in locating particular information through the index are also welcome. For answers to these questions, please call the Finding Aids Unit of the Office of the Federal Register (telephone 202-523-5227).

For this volume of the index and finding aids, Carol M. Blanchard was Chief Editor, assisted by Roy Nanovic. The index and finding aids are prepared under the direction of Martha B. Girard, assisted by Ruth C. Pontius and Carol A. Mahoney.

TABLE I—PARALLEL TABLE OF AUTHORITIES AND RULES

The following table lists rulemaking authority (except 5 U.S.C. 301) for regulations codified in the *Code of Federal Regulations*. Also included are statutory citations which are noted as being interpreted or applied by those regulations.

The table is divided into four segments: United States Code citations, United States Statutes at Large citations, public law citations, and Presidential documents citations. Within each segment the citations are arranged in numerical order:

For the United States Code, by title and section;

For the United States Statutes at Large, by volume and page number;

For public laws, by number; and

For Presidential documents (Proclamations, Executive orders, and Reorganization plans), by document number.

Entries in the table are taken directly from the rulemaking authority citation provided by Federal agencies in their regulations. Federal agencies are responsible for keeping these citations current and accurate. Because Federal agencies sometimes present these citations in an inconsistent manner, the table cannot be considered all inclusive.

The portion of the table listing the United States Code citations is the most comprehensive, as these citations are picked up and carried in the table whenever they are given in the authority citations provided by the agencies. United States Statutes at Large and public law citations are carried in the table only when there are no corresponding United States Code citations given.

For a list of current public laws cited as rulemaking authority, see Table I—Parallel Table of Authorities and Rules in the monthly "List of CFR Sections Affected" (LSA).

This table is revised as of January 1, 1986. Additions and removals to the table resulting from regulations published in the *Federal Register* since January 1, 1986, are found in the current month's edition of the LSA.

TABLE III—ACTS REQUIRING PUBLICATION IN THE FEDERAL REGISTER

The Federal Register Act (44 U.S.C. 1501-1515) and the Administrative Procedure Act (5 U.S.C. 551-559) are the basic acts authorizing Federal agencies to publish documents in the *Federal Register*. This table lists additional acts that require publication in the *Federal Register*.

Tables I and III are not duplicative. Table I lists the statutory and Presidential authority given Federal agencies to regulate. Table III is a historical listing of the acts requiring Federal agencies to publish documents in the *Federal Register*.

This table lists the year when the statute was enacted, a brief description, and the citation to the U.S. Statutes at Large and United States Code at the time of enactment.

The source note for the years 1936-1963 appears at the end of the list for 1963. For the subsequent years the source note follows each yearly list.

CAVEAT: This table is a finding aid. It does not have the effect of law, regulation, or ruling.
